

[MS-CDP]: Connected Devices Platform Protocol Version 3

This topic lists the Errata found in the MS-CDP document since it was last published. Since this topic is updated frequently, we recommend that you subscribe to these RSS or Atom feeds to receive update notifications.

Errata are subject to the same terms as the Open Specifications documentation referenced.

Errata below are for Protocol Document Version [V2.0 – 2017/03/16](#).

Errata Published*	Description
2017/04/17	In Section 2.2.2.1.1, Common Header, a RequestID field was added to the definition, with the following description: RequestID (8 bytes): A monotonically increasing number, generated on the sending side, that uniquely identifies the message. It can then be used to correlate response messages to their corresponding request messages.
